Dixon, IL – The Illinois Department of Transportation announces today that weather permitting, construction work will resume on River Drive/Third Avenue in Moline on Monday, May 4, 2015. McCarthy Improvement Company will be finishing the \$6.9 million contract that started in September of 2014.

The contractor will be working on placing the new concrete pavement for the project to reconstruct the section of River Drive from 19th Street to 23rd Street. Removal of the old pavement and placing of all the new water mains, sanitary sewers and storm sewers were completed last fall.

The exit ramp for southbound traffic to exit at River Drive that has been open for the winter will be closed on Monday, May 11, 2015. The closure is necessary to complete the paving for River Drive and the ramp connections. All the new pavement is scheduled to be completed by the end of May so the roadway and ramps can be open to traffic.

Please slow down and use extreme caution while driving through all work zones.
